Roskilde, August 2015

FAUSOL A/S, a leading supplier of sphagnum, fertilizer and pesticides to garden nurseries, hardware stores and retail chains, has signed an agreement with **Gardman Limited** (UK) on a close cooperation in the Scandinavian market to sell and distribute Europe's largest assortment of wild bird articles for the garden as well as a huge selection of garden accessories.

The **Wild Bird Care products** alone consists of more than 400 items, spread on eg **bird houses, feeders, bird tables** and **insect houses**.

The category with **garden accessories** consists of five sub-categories and includes just about everything you can imagine for your garden, terrace or balcony.

- **Planting** includes a large selection of mini greenhouses, greenhouses, plant supports and watering cans.
- **Landscaping** includes hanging baskets and pots, window boxes, rose arches and obelisks. In addition, we conduct a very large range of accessories consisting of eg nets, fencing, borders, garden tools and handy packs.
- **Lighting** includes solar lamps in high quality in many attractive designs and colors.
- **Covers** have a whole category of its own and includes approximately 150 different covers for outdoor furniture, parasols and barbecues.
- **Doormats** also have a category of its own. Here are a large selection of indoor and outdoor doormats in various designs, materials and qualities.

FAUSOL have the main stock at Roskilde and from here, we serve the Scandinavian market.

The new cooperation with GARDMAN includes logistic, production and purchasing in eg Asia and will focus on design and quality products at good prices. In addition, our customers can benefit from the store ready POS materials and display solutions.

We will constantly strive to create an up-to-date product range that combines old time bestsellers with new and trendsetting garden and wild bird products.
