FAUSOL has made a distribution-agreement for Scandinavia with Briers

Roskilde, September 21, 2015

Less than two months ago, FAUSOL announced a Scandinavian distribution - agreement with GARDMAN and this is not the end of it...

Now we proudly announce a Scandinavian distribution-agreement with Briers Ltd., England.

The range includes primarily garden- and work-gloves and rubber boots to a high quality standard, for adults and children. The focus here is on design, function and colour, coupled with highly attractive point-of-sale presentation that captures customers' attention.

Briers have developed considerably in the course of the last 4-5 years and are now number one in their field in the UK.

We will launch the concept at the ELMIA Fair and the range will soon be on view in our showroom in Roskilde. Please contact us for an appointment to view it.
